

Easy to produce

dwarf sunflowers

NEW Miss Sunshine

Ballad F1 & New Miss Sunshine F1 Sunflowers

Easy-to-produce, economical plants work well indoors and outdoors in gardens and containers.

These dwarf sunflowers are free of pollen, making them perfect as indoor gift plants. They are also tolerant of mildew to perform well in the garden. Miss Sunshine flowers uniformly about 7 to 10 days earlier than Ballad. It is shorter, and flowers are 25% smaller than Ballad's 4 to 5-in. (10 to 13-cm) blooms. Miss Sunshine displays warm golden flowers, and produces secondary blooms more quickly. For larger flowers and bright yellow color, Ballad excels.
